ELECTRIFY ROADS; RUN SECOND CABLE

La Crosse Water Power Company Negotiating With Burlington at Winona

GREEN BAY ALSO CONSIDERED

Hatfield Concern May Operate Electric Locomotive to Marshland Junct.

If plans of the La Crosse Water Power company are carried out, the Burlington stub between Winona and East Winona will be electrified and electric locomotives will haul Green Bay trains between Marshland Junction and Winona.

Negotiations are already in progress with the Burlington officials for permission to string a second trunk wire over the Burlington and Green Bay draw bridge at Winona. In this connection the Water Power company makes a proposition to take care of the Burlington's business between Winona and East Winona by electricity—to operate electric cars and take care of the freight with an electric locomotive. The Water Power company submits figures to prove it will be economical for the railroad. The plan also contemplates caring for the Green Bay & Western's business between Winona and Marshland Junction in the same manner.

The government made a provision in permitting the Burlington to build its present bridge at Winona that all subsequent lines which should desire to operate there should use the same bridge. The Burlington owns two thirds of the stock and the Green Bay & Western one-third. In case there is a hitch in negotiations for permission to string the new cables, the proposition will be submitted to the secretary of war who is made the sole arbitrator. However, President W. J. Ferris of the Water Power company does not anticipate any complications and has assurance that arrangements will be made satisfactory to the railroad and the water power company.

The power already of the company are already connected with the North side station and the company's workmen are now engaged in stringing cables past Hunter's bridge to Galesville, Marshland Junction and thence to Winona. additional power being needed there.

KILLED AT SUNDAY SCHOOL PICNIC

Hay Rack Crowded With Children Plunges Over Bank; Three Killed; Many Injured

HUMBOLDT, Iowa, Aug. 26.—A hay rack carrying a number of Methodist Sunday school children to a picnic plunged over an embankment here yesterday, whirled in the air, turned turtle and crushed two children to death, injuring many others. Those killed:

Ruth Pawcett, 16 years old.
Alma Wilder, 12 years old.

Fatally injured:

Mrs. Robert Newton, a Sunday school teacher.

None of the children escaped injury, some being badly bruised.

The party was driven by Wm. Wallace, a wealthy retired farmer.

At the foot of a hill near a seven foot embankment he stopped to permit the boys in the party to dismount and lighten the load for the ascent.

The horses began to back and tipped the hayrack over the edge of the embankment. The children were crushed and smothered.

Wallace is frantic over the horrors of the accident.

FUNERAL OF THOMAS SKATEN TOMORROW

The remains of Thomas Skaten, 33, formerly of this city, who died at Tucumari, N. M., after a brief illness with acute indigestion, arrived in La Crosse this morning over the Milwaukee road and are now at Fessler & Dahl's morgue. The funeral will be held tomorrow afternoon at 2 o'clock at the anti-New York funeral parlors on South Fourth street and at the Norwegian Lutheran church at South and Division streets at 2 o'clock. Rev. C. O. Vik of the north side will officiate and interment will be made in Oak Grove cemetery.

SURRENDERS HEART IN THIRTY MINUTES

CHICAGO, Aug. 26.—The wedding ceremony which united Miss Louise Cheatham of Clarksville, Tex., to Brigadier General Thomas S. Hutchinson, hero of the Cuban war, brought to a climax a most interesting romance which proves that cupid must have adopted one of the late designs of airships for rapid transportation instead of his old-fashioned wings.

"Today," declares the dashing Tennessee warrior, "thirty minutes is ample time to win a wife." There is a certain philosophy of love which the general propounds in this manner:

"Don't wait for her to say 'Yes' or 'No'—take it for granted that she is yours."

"Commence immediately to act as if she was your property."

"All women like to feel as if they belonged to a man."

"The girl will soon begin to take your viewpoint of the affair."

"It ought not to take any man more than thirty minutes to win a wife."

"If the young woman's relatives object just ignore them."

"If the girl and her relatives flee—follow them. Don't let them get out of your sight. They will soon capitulate."

"Conduct the siege of a girl's heart as you would a battle or a business deal."

It is certainly a fact that General Hutchinson's philosophy worked in this case. He saw the beautiful Texas girl during the Confederate soldiers' reunion at Memphis last month. He induced Governor Patterson to assist him by an introduction to the young lady. Thirty minutes later he proposed to her and while it is not on record she accepted him it is a fact they were married this week. And a happier couple never enjoyed a honeymoon.

JURY WILL HEAR SUIT OVER METER

Taggart Gets a Change of Venue and Asks Jury Hearing in the Controversy

Monday morning at 9 o'clock a justice court jury of six will hear the replevin suit of the La Crosse Gas and Electric company against Harry Taggart for the recovery of the company's meter in the Taggart home. Taggart this morning applied for a change of venue from Justice C. L. Baldwin's court to the court of Justice L. Kleeber on ground of prejudice. Before Justice Kleeber demand was made for a jury trial, and the jury will be selected this afternoon. The case will come up for hearing Monday morning at 9 o'clock.

The action grows out of Taggart's refusal to pay the company an alleged illegal penalty of ten per cent for failure to pay his bill by the tenth of the month and the company's subsequent unsuccessful effort to force the removal of Mr. Taggart's meter and service.

FORESTERS MEET.

TOLEDO, O., Aug. 26.—The New York delegation to the Foresters of America in supreme convention here failed to elect a single officer, the entire slate of the anti-New York faction being chosen. E. M. Murtfack being chosen. The new secretary is John F. Cosgrove, chief ranger in John F. Cosgrove, Hartford Conn. The secretary-elect is Thomas M. Donnelly, Jersey City.

OPTION IN STREET CAR CO. EXTENDED

Water Power Company Has Until September 20th to Decide on Purchase

WOULD INSTALL HEAVY RAILS

If Hatfield Company Buys, It Will Prepare at Once for Use of Heavier Passenger Cars

Owing to the fact President and General Manager W. J. Ferris of the La Crosse Water Power company was engaged upon the street car arbitration matter a considerable time since the sixty day option was given on the property of the street railway company, the street car directors have granted an extension until Sept. 20 of the option.

Mr. Ferris said today that investigations were still being conducted into affairs and physical condition of the company and that no decision would be reached at this time. The Water Power company in case it buys the property, plans on installing much heavier steel and making material improvements in the service through the city. Seventy-two pound steel is now the heaviest which is used by the car company, but the prospective purchasers plan to install 90 pound steel in case the property falls into their hands. This will be necessary to take care of the heavier cars which will be used. While 70 pound steel is good for the present cars used by the company, big double truck cars which would probably be installed at once by the Water Power company would pound the connections pretty hard and it would be more advisable in the opinion of Mr. Ferris to install heavier steel.

NATIONAL CONGRESS MEETS AT SEATTLE

45 States Represented; Policy of Good of All Warmly Advocated; Pinchot to Preside

SEATTLE, Wash., Aug. 26.—Representatives from 45 states were present today at the opening sessions of the National Conservation congress when it was called to order in the auditorium at the exposition grounds by H. W. Carroll, chairman of the executive board of the Washington State Conservation congress. Joseph N. Teale of Portland, Ore., member of the national joint committee of conservation and prominent at the conferences in Washington this winter, delivered the "Keynote" address at the opening session. He said in part:

"The contest for conservation is bound to be bitter. With the enormous stake that is at issue, victory will not be complete until every possible effort on the part of private interests to absorb the rich prizes has been exhausted."

"Conservation means that the welfare of the people as a whole should be considered rather than the enrichment of the favored few. The people are awakening and the battle for the preservation of their rights to participate in the natural public wealth is now on. A striking illustration of this fact is the policy granting water power rights in perpetuity. If it were proposed under a blanket act to grant every water power right in this state to one man or corporation, public opinion would drive every participant in the act from the state, dishonored. Yet every state legislature except that of Oregon could do that."

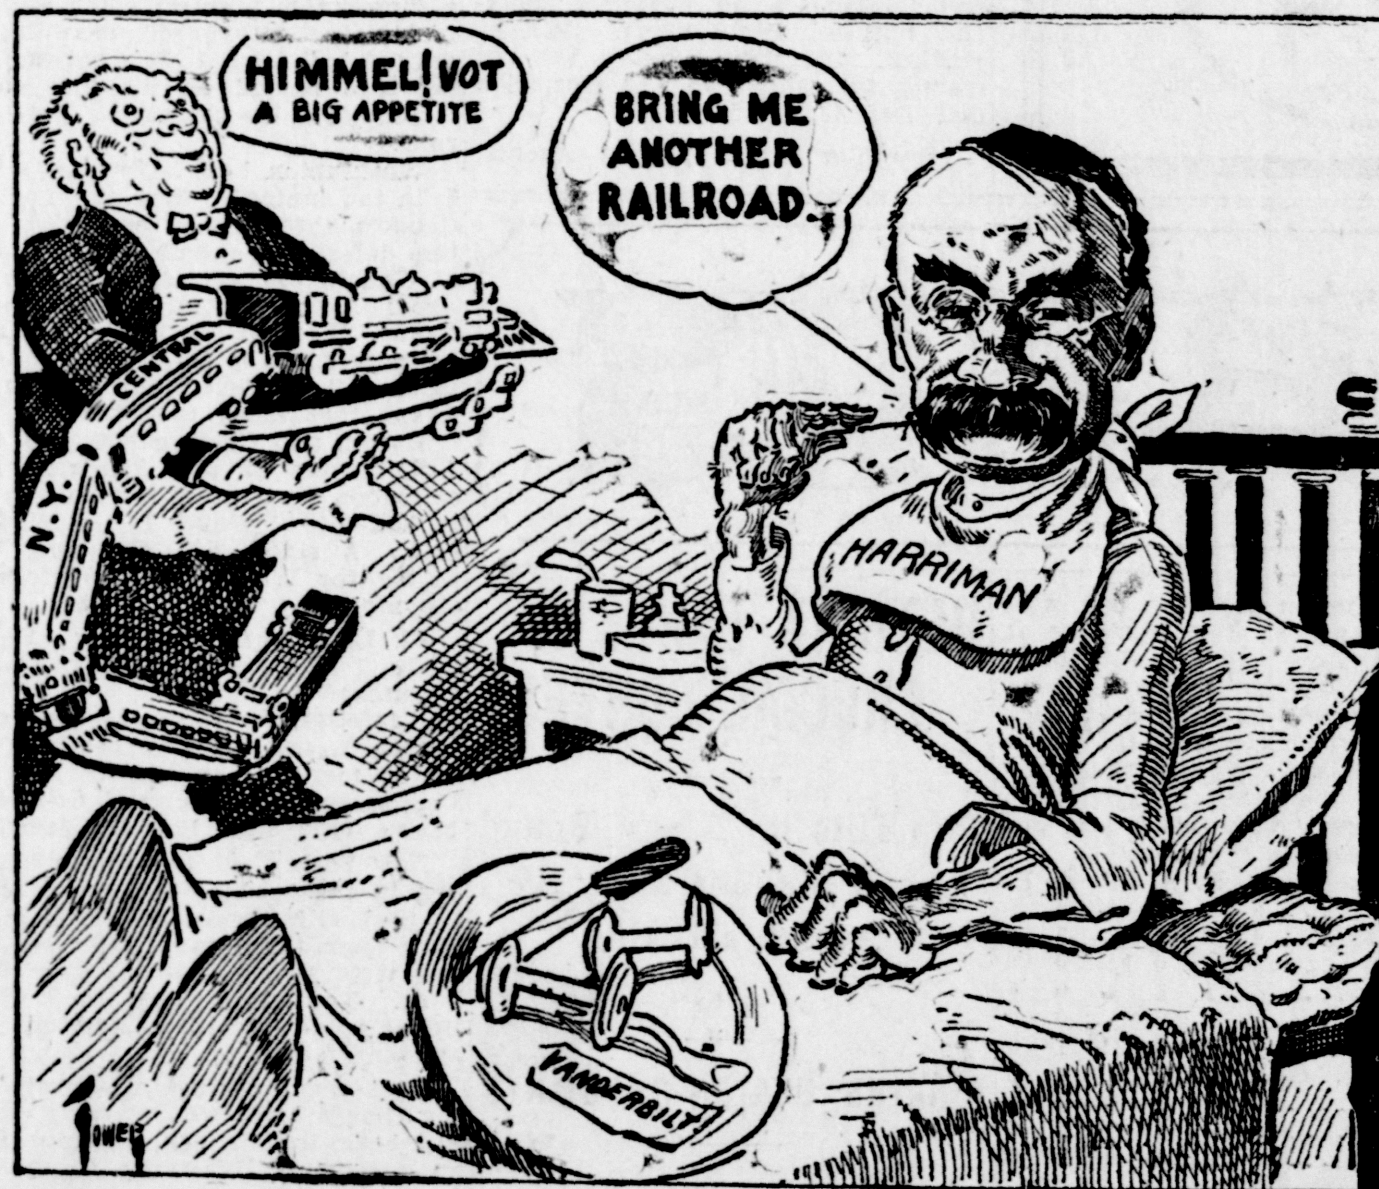

Pinchot Eulogized
"It required Roosevelt to inaugurate the movement; it requires men inspired by the same unselfish devotion to the public good to continue it. Fortunately we have as a leader a man who, in my judgment, represents the highest type of American citizenship, Gifford Pinchot."

At the opening session today addresses of welcome were delivered by Gov. Hay, Mayor Miller, exposition President Chilberg, Chairman Shoemaker of the state conservation commission and President Libbey of the state conservation association.

Chief Forester Pinchot arrived last night and will address the congress tomorrow. J. Pinchot will preside at the sessions tomorrow afternoon, when ex-Governor Pardee of California will speak.

It is not known yet whether Secretary Ballinger will attend, although it is known he is somewhere in the vicinity.

T. R. BAGS MUCH BIG GAME IN HIS HUNT

An Interesting Story of the Success of Late President's Hazardous Expedition in Africa

(By Warrington Dawson, Staff Correspondent of the United Press.)

SAIGO SOI CAMP, Lake Naivasha, B. E. A., July 14.—(By mail to New York.)—Two days ago Mr. Roosevelt, Kermit, the three naturalists, Mr. Barnes, Professors Heller and Loring, and the entire Safari emerged from the wilderness and came out upon that garden spot, the Atterborough farm, on the shores of Lake Naivasha. If there has been a modern case of "the conquering hero comes," it was this return from the Sotik. Without a day of illness, without real suffering from hunger or thirst, except on the last two days, when the usual water-pool was found to be dried up, Col. Roosevelt, his companions and his men, had marched twice across the dreaded third belt and had shot for four weeks in the Sotik, into which a very few years ago no hunter dared penetrate.

And besides this, he brought back spoils nearly sufficient to complete his collection of specimens. The total count of big game killed up to date by himself and Kermit is as follows: Twelve lions, 7 rhinos, 3 hippos, 6 giraffes, 5 buffalo, 4 eland and 6 topi, in addition to all the various specimens of antelope and gazelle. In fact he has obtained in less than three months all that he expressed the hope to do in one year with the sole exception of elephants and white rhinoceros specimens, which he has not yet obtained because they do not exist in the regions where he has hunted thus far.

Hard Work Ahead.
The work ahead of the colonel will perhaps be less enjoyable, for he and Kermit are now very careful as to what they shoot, as they desire to

INTENSE INTEREST IN AIRSHIP FETE

Curtiss' Friends Alert for Fair Play; Fournier Recovering; Rope Walker Wins \$10,000 Prize

(By Warrington Dawson, Staff Correspondent of the United Press.)

RHEIMS, Aug. 26.—Hubert Latham, flying in an Antoinette monoplane this afternoon, broke the records for time and distance established yesterday by Paulhan. The judges have not yet announced the time or distance.

Latham's record breaking flight was begun a few minutes after his flight of nearly 44 miles in an hour, one minute 53.4 seconds. He had to abandon his first flight on account of his engine running out.

Paulhan was the recipient of continued congratulations today, as it is taken for granted he has won the first prize of \$10,000 in the Grand Prix de la Champagne and that his record of yesterday will also bring him the \$4,000 Michelin prize for the best duration flight during the year.

Paulhan is a poor man, having been a tight rope walker but a short time ago. He took up with aeroplaning less than two months ago, but in his flights of Tuesday and Wednesday he clearly showed he was the most advanced aviator on the ground. Curtiss' first flight today was three times around the course of 18.6 miles. He made the distance in 28 minutes 53.3 seconds, or 2.5 of a second slower than Paul Tissandier, flying a Wright machine, negotiated on the same distance early in the week.

Bleriot Carries Passengers.
Louis Bleriot carried two passengers in his monoplane this afternoon a distance of 6.3 miles in 8 minutes and 32 seconds. It was the first flight with passengers of the week and elicited great applause.

Glenn H. Curtiss made a short flight this morning and before the day is done it is expected he will make another attempt to win the short speed record from Louis Bleriot.

There was considerable inquiry among Americans as to why it was first announced last evening that Curtiss had equaled Bleriot's mark of 8:04.2-4 for the 6.2 miles of the course and later his time was given as 8:11.3-5. No charge of favoritism has been made against the timers, but Curtiss' friends are wondering whether he is to be given an equal chance with the flock of French aviators.

Henri Fournier who miraculously escaped death in the fall and smashing of his machine yesterday, appeared on the field today wearing many bandages. Despite his painful injuries he made a six mile flight in his reserve machine. There were a half dozen other flights this morning, none of which approached in interest the work of Latham and Paulhan.

Latham's record is unofficially announced as 97 miles in 2 hours and 13 minutes.

Bleriot Has Accident.
Louis Bleriot, Glenn Curtiss' most feared rival for the Coupe Internationale, fell with his aeroplane this afternoon and sustained slight injuries. His machine was wrecked and he will have to use a reserve machine in the Coupe Internationale on Saturday.

GERMAN AIRSHIP TO FLY 450 MILES

Emperor William Will Welcome Arrival at Berlin; Great Crowds Pouring Into City

FRIEDRICHSHAFEN, Aug. 26.—

Everything is in readiness for the start at 7 o'clock this evening of the aerial cruise of the Zeppelin III, the newest Zeppelin dirigible balloon, to Berlin, where it is expected to arrive Saturday.

The distance to Berlin is 450 miles, as the crow flies, and it is thought the big ship will have no difficulty in reaching the German capital on time.

The arrival in Berlin was originally scheduled for today but the kaiser, ever mindful of the little folk, wired Zeppelin he would consider it a favor if the count would bring his airship into the capital on a day when the children would not be in school so more of them might see the ship. For this reason the trip was postponed.

Count Zeppelin himself will not be in the airship when it starts. He plans to board it at Bitterfeld, 100 miles from Berlin, on Saturday. The

DELEGATES NAMED FOR RIVER MEETING

Congressman Esch, Twesme and Bohri Selected By Governor James Davidson

Congressman John J. Esch, Assemblyman A. T. Twesme of Galesville and Ex-Assemblyman Fred J. Bohri of Fountain City were appointed a committee of three by Governor James Davidson yesterday to represent the state of Wisconsin at the meeting of the Upper Mississippi river improvement association which will be held at Winona Oct. 6 and 7.

The appointees were notified by the governor this morning.

This meeting will be one of the largest river meetings held in this district. Five states will be represented and the governors from each will be present together with representatives from every commercial body in each state.

La Crosse will send three delegates from the board of trade and three from the La Crosse Manufacturers' and Jobbers' club. Other cities are entitled to three representatives from each civic organization provided that no separate municipality shall have over fifteen representatives in the meeting.

MORE ACRES FOR HOMES.

WASHINGTON, D. C., Aug. 26.—The interior department today designated 21,062 acres more land as coming within the enlarged homestead act in the state of Washington, making a total to late for that state of 3,597,976 acres.

GOV'T. AROUSED ON COAL LANDS DEAL

Taft Orders Full Inquiry on Alaska Coal Lands Question; Sets Interior Dept. Hustling

BALLINGER TO MAKE REPORT

Land Office Views and Opinion of Attorney General; Great Interest Awakened

WASHINGTON, D. C., Aug. 26.—This was the interior department's busy day. President Taft's order for full reports on the Cunningham coal land cases from officials of the department following the exclusive publication by the United Press Tuesday of the details of the charges made by E. R. Glavis of Seattle, chief of the field division, general land office, has stirred up more activity than the department has experienced in years.

The situation had already become acute because of the sharp challenge of veracity of officials of the forestry service and officials of the land office and the president brought affairs to a climax. His order was carried out to the letter. Every scrap of information bearing on the subject will be dug up from the files of the department and will be sent to Ballinger with personal reports by Secretary Ballinger, who is now in the west. Acting Secretary Pierce, General Land Commissioner Bennett and Chief Field Agent Schwartz. It is understood also that Chief Forester Pinchot and Associate Forester Price who have been supporting Glavis in his efforts to have a full investigation of the Cunningham claims before allowing them to become patented have been called upon to present their side of the controversy.

Although the utmost secrecy is being observed by the interior department officials regarding the case, the text of the original decision of the department, to which complaint was made and that of the attorney general reversing this became available today.

The department's order, addressed to the commissioner of the general land office, May 19, 1909, and signed by Frank Pierce, says:

"I am of the opinion that so as to limit the scope and purpose of the act of 1909 as to refuse the perfection of such claims, because of such previous arrangements or agreements is unwarranted, and that in passing upon entries sought to be perfected under the act of 1908, where the only objection thereto is an arrangement or agreement of the character specifically described in your letter, the same night, and should be accepted and passed to patent."

It was this order which was interpreted by Glavis as meaning that charges of conspiracy to defraud the United States in these cases would not lie and led the attorney general to take the matter up with President Taft.

The attorney general's order was: "I am of the opinion that if the

MR. BRADISH'S JOKE.

It is quite possible that City En-
gineer George Bradish may con-
clude that he made a mistake when
he declared that the plan to establish
a municipal lighting plant is a
"joke." The people of La Crosse, by
a greater majority than that given
any official elected in the recent city
election, voted to establish such a
plant. Mr. Bradish, as spokesman
or the administration, and perhaps
for a vitally interested concern, says
they did not know what they were
doing when they voted for the plant,
that Mr. Cloos misrepresented the
acts, as he is prepared to show, and
incidentally confirms the suspicion
that the city government intends to
deliberately ignore the popular man-
date by disregarding the vote to es-
tablish the plant.

The assumption of the city en-
gineer that the voters of La Crosse
are too ignorant to be permitted to
vote upon bonding propositions may
not be received with applause by the
thousands of voters upon whose in-
telligence his stand is a deliberate
aspersion. However, he declares
that he is prepared to show that the
public has been misled by Mr. Cloos'
figures, which he says are incorrect,
and if he is right about it it becomes
his duty to inform the people and
show up the error. For that pur-
pose we have offered Mr. Bradish
space in this paper, and he must
either make good, or by silence ad-
mit that it is the deliberate purpose
of himself and his associates to dis-
obey a direct order from the people
to faithfully represent whom he is
paid his salary. The Tribune does
not presume to say whether a light-
ing plant would pay; it does insist
that the people having voted for one,
the subject should have a fair hear-
ing and, to justify failure to build, an
honest showing that it would be a
financial mistake must be made by
those who shall assume the respon-
sibility of side-tracking the project.

A BOOMERANG

"Look at this picture and then
look at that." Such, says the Mil-
waukee News, "was the indictment
that Emanuel L. Philipp brought
against the primary election law.

"The piece de resistance that Mr.
Philipp offered to the New York leg-
islative committee is found in his
statement that in 1893, under the
caucus and convention system, Wis-
consin was represented in the United
States senate by John C. Spooner
and Joseph Very Quarles. Today,
under the primary system, it is rep-
resented by Robert M. La Follette
and Isaac Stephenson. And, without
saying it, yet he uttered the lament:
'How great the fall O, my country-
men!'

"We are free to concede that from
John C. Spooner to Isaac Stephenson
is a decided descent. But why hold
the primary responsible for our sen-
ators? La Follette, we may believe,
even is a greater fall in the estima-
tion of Philipp than is Uncle Ike.
But La Follette is the product, not of
the primary, but of the caucus and
the convention. He yet is to be a can-
didate at a primary election. And
Stephenson, though a candidate at
the last primary, let it not be for-
gotten he was elected by the legislature
after he had been nominated by a
legislative caucus when first he
stuck his camel head beneath the
senatorial tent. La Follette and Ste-
phenson, then, are exhibits of the
caucus and convention system rather
than fruit of the primary.

"The responsibility for Stephenson
in the United States senate rests up-
on the republicans of Wisconsin. Mr.
La Follette's responsibility, perhaps,
is the heaviest. It rests upon all fac-
tions, though the stalwarts have tak-
en him to their bosom, while La Fol-
lette and his progressive followers
have disowned him. So at present like
is a reactionary liability. But why
blame the primary when he first was
hatched in a republican caucus where
harmony ruled?"

The News seems to have twisted
Mr. Philipp's arraignment of the pri-
mary into a boomerang which he can-
not dodge. It shows that Spooner and
Stephenson were products of the old
boss system, while La Follette was
elected in spite of that system while
it still obtained. Notwithstanding the
distinguished public services of Sena-
tor La Follette, it must be admit-
ted that he contributed his one ser-
vicious blunder when he permitted Ste-
phenson to be sent to the senate,
but that, at the cost to himself of a
considerable means of support he
repudiated the aged reactionary as
soon as it became evident to him
that the latter was but a counterfeit
reformer, and at heart allied with
the monopolists, is to say the least
an extenuating circumstance. All, as
the News says, all the standpatters
in the senate today are products of
the old caucus and convention sys-
tem, and Mr. Philipp is smeared with
mud of his own throwing.

LIVE WIRES

Marquis de Villalobon, new Spanish
minister to the United States.

WASHINGTON, D. C., Aug. 26.—
The latest addition to the diplomatic
corps at Washington is Marquis de
Villalobon, the new Spanish minister.
He succeeds Senor Don Ramon Piva.
The marquis has a striking person-
ality and his years of diplomatic
service make him one of Spain's
leaders. He will attend the King
Wamba carnival at Toledo as person-
al representative of the king of Spain.

Punishment Fitting the Crime

A Sparkling Comedy

If a woman disguised as a boy en-
lists in the Austrian army she must
do as other soldiers and submit to
the daily routine of taking frequent
baths under the scrutiny of the com-
manding officer. This is only one of
the trials that the heroine in "Mlle.
Mischief" which the Shuberts will
present here Saturday night only,
Aug. 28th with Corinne as the star,
must undergo.

The story of the Viennese operetta
is that of a model who wagers her
employer, Andre Claire, that she can
disguise herself as a boy and remain
in the local barracks for twenty-four
hours without detection. Conceiv-
ing her horror when, after being accept-
ed as a recruit, she is informed that
she must submit to the above routine.
The model, however, "sticks," chief-
ly for the amusement of the author of
"Mlle. Mischief" who, once he gets
her inside the walls of the garrison,
allows her to make trouble for ev-
erybody concerned.

The Shuberts, who have placed
Corinne under contract for a long
period, have given her perhaps the
most suitable thing in which she has
ever been seen, likewise they have
surrounded her with a large cast con-
taining many well known players to
say nothing of the original produc-
tion which ran on Broadway for eight
months, beginning first at the Cas-
sino and bringing its successful met-
ropolitan appearance to a close at
the Lyric.

In Corinne's support are the fol-
lowing: William Tracy, Charles Mey-
er, Jessie Laseur, F. Cutler, Louise
Brunelle, Frank Farrington, Alfred
Robe, Bonnie Farley, Alice Chase, J.
E. Lavarne and Kitty Baldwin.

The Blind Organist

It is a pleasure to note that the
theater going public are going to be
treated to a brand new play, "The
Blind Organist," which comes to the
La Crosse theater for two perform-
ances, Sunday, Aug. 29.

The Blue Mouse

Of all the many comedies that
have emanated from the fertile brain
of that prolific and tireless play-
wright, Mr. Clyde Fitch, probably
none has ever scored so instantane-
ously and so distinctly as his latest
effort the adaptation from the Ger-
man of Alexander Engle and Julius
Horst, "The Blue Mouse," which
comes to the La Crosse theater next
Tuesday, Aug. 31st.

As one able critic has written,
"Mice that are blue are peculiar to
the stage. When invented by two jol-
ly Teutons and taught American
tricks by Clyde Fitch, they become
creatures of unusual charm—a bit
"devilish."

"The Blue Mouse" is described as
a farce of the wildest description and
it moves so rapidly, the story is so
sparkling in its sudden flashes of wit
and real comedy and so engrossing in
its rapid changes of situations each
funnier than the last, that one really
hasn't time to consider the exact
moral value of it all and is kept so
busy laughing that he forgets to pick
flaws; it is a coalition of conglomer-
ate comicisms compounded into one
continuous scream.

While Mr. Fitch calls his newest
effort a "farceful comedy," it has a
story and it is that of an ambitious
young secretary to a railroad presi-
dent who seeks promotion; said
president has a deep and abiding
fondness for attractive females of
whom his wife is "nit." Scheming
young secretary palms a well known
soubrette off as his wife with whom
said president has a desperate flirta-
tion. The soubrette is booked to en-
tice the promotion sought from the
president. And around this general
idea a weird and wonderful mix-up
is arranged that presents a big tan-
gle from start to finish—a tangle
fraught with endless possibilities, a
tangle that apparently knows no un-
doing until combatants and non-com-
batants finally wiggle out with un-
looked for eclat.

The company to be seen here is
said to be one of great strength, and
in some respects even stronger than
the original now playing in New
York. It includes Miss Elsa Ryan,
the Messrs. Shubert's newest "find,"
who is said to be the most winsome
little actress, as clever as she is pret-
ty; Geoffrey Stein, whom the same
firm will feature the coming season
in a piece of his own authorship;
Wilton Taylor, whom Mr. Fitch es-
pecially selected for the part of the
old president; Inda Palmer, one of
the Hoytian school of comedy; Miss
Palmer was associated with the late
Charles Hoyt for nine years and cre-
ated nearly all the character roles in
all the successful comedies of this
clever playwright, and these people
are assisted by some twenty others,
making it the largest cast ever used
in a farce comedy.

"LEN" LOTTRIDGE LETTER

WEST SALEM, Wis., Aug. 26.—
After reading a short history of the
election of Stephenson as United
States senator by the Wisconsin leg-
islature in 1909, memory goes back
to several similar contests in which
I have taken an active part during
the last half century, and thinking
the readers of The Tribune might
take an interest in some of those
senatorial campaigns, have jotted
down some of the incidents and
events connected therewith.

In 1861 in the election of Hon. T.
O. Howe, who held the position of
United States senator from Wiscon-
sin for 18 years, was my first active
interest in any candidate for that po-
sition. During those 18 years he
had been elected with practically no
opposition, excepting from democ-
ratic aspirants for the place. The

"But, Willie," said his papa, "you

"No, ain't 'fraid of the water," pro-

A Jaw-Breaking Discourse

O list, loquacious ladies, list
The tale of a revivalist.

At Barnstable last week she went
To hear a missionary intent.

Too dry, perhaps, his sermon shaped;
At any rate, the lady gaped.

And gaped so wide, the papers state,
Her lower jaw was dislocate.

They say (but true it may not be;
Such fibs in print you often see)

That with the married men down
west

This missioner's in great request;

So much so, that they'd give their
lives

To get him to "revive" their wives.

A Classic in Kentucky

They have been telling this story
down in the Blue Grass so long that
the Louisville Courier-Journal says it
is regarded as a classic:

"Majah," announced the colonel,
"I bet I've sweat no less than sev-
enteen gallons!"

"Begging your pardon, kunnell,"
returned the major desisting from a
long libation, "gentlemen don't
sweat; they perspire. Horses sweat."

"Well, then," returned the now
irritated colonel, glaring at the calm
and contented critic of his diction,
"by gad, suh, I'm a hoss!"

America

The president's journey next fall
will cover 13,000 miles, all under
one flag. It was an Englishman who
after traveling from New York to St.
Louis was asked in the latter city if
he was going west. "Heavens, what
a country! Here I am a thousand
miles from the sea, and I'm asked
if I'm going west!" It was an Ameri-
can, who, alighting in San Fran-
cisco from a trip across the continent
which had been impeded by heavy
traffic, grasped his friend's hand
at the station and exclaimed with
pride: "What an empire, where a
man, though moving all the time, can
be twenty-four hours late on a rail-
road train!" It is an empire, and
powerful as vast.—Washington Sun-
day Star.

Very Game

Mrs. Nicholas Longworth, at a din-
ner in Cincinnati, told a quaint story
about a precocious boy.

"They are very precocious, in-
deed," she said, "those little chaps
from Eton or Rugby, with their
round, sober faces and their quiet
air."

"A very pretty American girl was
talking one evening in London to one
of these urchins."

"And have you got a sweetheart
yet, Tommy?" she said, playfully.

"No," said Tommy—"still, I'm
game enough for a bit of spooning, if
that's what you're after."—New
York Tribune.

CIRCULAR
STAIRCASE

By Mary
Roberts

That was all. Gertrude went into
town with her and saw her safely
home. She reported a decided cool-
ness in the greeting between Louise
and her mother, and that Doctor
Walker was there, apparently in
charge of the arrangements for the
funeral. Halsey disappeared shortly
after Louise left and came home
about nine that night, muddy and
tired. As for Thomas, he went
around dejected and sad, and I saw
the detective watching him closely
at dinner. Even now I wonder—
what did Thomas know? What did
he suspect?

At ten o'clock the household had
settled down for the night. Liddy,
who was taking Mrs. Watson's place,
had finished examining the tea-tow-
els and the corners of the shelves in
the cooling-room, and had gone to
bed. Alex, the gardener, had gone
heavily up the circular staircase to
his room, and Mr. Jamieson was ex-
amining the locks of the windows.

Halsey dropped into a chair in the
living-room, and stared moodily
ahead. Once he roused.

"What sort of a looking chap is
that Walker, Gertrude?" he asked.

"Rather tall, very dark, smooth-
shaven. Not bad looking," Ger-
trude said, putting down the book
she had been pretending to read.

Halsey kicked a taboret viciously.

"Lovely place this village must be
in the winter," he said irrelevantly.

"A girl would be buried alive here."

"It was then some one rapped at
the knocker on the heavy front door.

Halsey got up leisurely and opened
it, admitting Warner. He was out
of breath from running, and he look-
ed half abashed.

"I am sorry to disturb you," he
said. "But I didn't know what else
to do. It's about Thomas."

"What about Thomas," I asked.

Mr. Jamieson had come into the
hall, and we all stared at Warner.

"He's acting queer," Warner ex-
plained. "He's sitting down there
on the edge of the porch, and he
says he has seen a ghost. The old
man looks bad, too; he can scarce-
ly speak."

"He's as full of superstition as an
egg is of meat," I said. "Halsey,
bring some whisky and we will all
go down."

No one moved to get the whisky,
from which I judged there were
three pocket flasks ready for emer-
gency. Gertrude threw a shawl
around my shoulders, and we all
started down over the hill: I had
made so many nocturnal excursions
around the place that I knew my
way perfectly. But Thomas was not
on the veranda, nor was he inside
the house. The men exchanged sig-
nificant glances, and Warner got a
lantern.

"He can't have gone far," he said.

"He was trembling so that he
couldn't stand, when I left."

Jamieson and Halsey together
made the round of the lodge, occa-
sionally calling the old man by
name. But there was no response.
No Thomas came, bowing and show-
ing his white teeth through the
darkness. I began to be vaguely
uneasy, for the first time, Gertrude,
who was never nervous in the dark,
went alone down the drive to the
gate, and stood there, looking along
the yellowish line of the road, while
I waited on the tiny veranda.

Warner was puzzled. He came
around to the edge of the veranda
and stood looking at it as if it ought
to know and explain.

"He might have stumbled into the
house," he said, "but he could not
have climbed the stairs. Anyhow,
he's not inside or outside, that I can
see." The other members of the
party had come back now, and one
had found any trace of the old
man. His pipe, still warm, rested
on the edge of the rail, and inside
on the table his old gray hat show-
ed that its owner had not gone far.

He was not far, after all. From
the table my eyes traveled around
the room, and stopped at the door of
a closet. I hardly knew what im-
pulse moved me, but I went in and
turned the knob. It burst open
with the impetus of a weight behind
it, and something fell partly for-
ward in a heap on the floor. It was
Thomas—Thomas without a mark
of injury on him, and dead.

Said the Sack of Flour:
To the Loaf of Bread

"You are the Bread everybody wants now, because you are made from MARVEL
unbleached FLOUR."

Said the Loaf of Marvel Bread: "That is surely so, but WHY?"

Said the Sack of Marvel Flour: "The reason is the good housekeepers have dis-
covered that MARVEL is the only Flour made by a large Mill in the U. S. that has
never been bleached and always been pure
and that did not have to be changed to
comply with the recent ruling of the U.
S. Gov't Pure Food Dept."

Said the Loaf of Marvel Bread: "That
explains why some of my snow-white
friends have become so unpopular. The
good housewife always wants the
purest and best so now they are all using
MARVEL unbleached Flour."

If you make your own bread, cake and pastry,
demand of your grocer MARVEL Flour. If he
cannot supply you send us his name and we'll
see that he does. If you use baker's bread, ask
for bread made from MARVEL Flour. It costs
no more and is absolutely pure—of this you
may be certain.

MINNEAPOLIS MAN STRUCK BY TRAIN

E. L. Wallace Steps Onto Track In Front of Approaching Passenger Train

HURLED TWENTY-FIVE FEET

Sought to Escape East-bound and Is Severely Hurt by Engine on the Next Track

While crossing the tracks of the Milwaukee road at Berlin street about 4:15 o'clock this morning, a man about 40 years of age, giving his name as E. L. Wallace and claiming Minneapolis as his home, was struck by passenger train No. 57 and severely injured about the head and bruised about the body. He is now at the La Crosse hospital.

Passenger train No. 1 was run in two sections last night and the last section arrived in this city about 4 o'clock this morning. Wallace was crossing the tracks about fifteen minutes later and in the heavy fog could see but a short distance ahead of him. Hearing the engine from No. 1 coming down the tracks returning east to Milwaukee he stepped onto the west bound tracks, directly in front of passenger train No. 57, coming from the east. Wallace was struck by the pilot of the engine and hurled a distance of about twenty-five feet into the yard of John Webber, 732 Berlin street. The police were immediately notified and an ambulance sent for. Officers Fitzsimmons and Britton hurried to the scene and placed the injured man in the ambulance. Dr. Suter, who had been called, ordered him removed to the La Crosse hospital.

At the hospital investigation showed that the man had received a bad cut in the scalp, an injury on the leg and other minor body bruises. The scalp wound was closed and the other injuries attended to by the physician, who stated that he had an excellent chance to be discharged from the hospital in a few days. Inquiry at the hospital this morning elicited the reply that the injured man's condition was rapidly improving and that today he was able to be about for a short time.

Nothing was discovered in the injured man's clothing as to his identity and no one at Minneapolis has been notified of the accident. Beyond the information divulged by the injured man, that his name is E. L. Wallace and that he lives at Minneapolis, nothing is known. When found by the police officers this morning the man was penniless and it is thought that he is some laboring man beating his way about the country in search of work.

CURED HAY FEVER AND SUMMER COLD

A. S. Nausbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." O. T. Erhart.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared.

ANNOUNCEMENT IS VERY IMPORTANT

Ten-Minute Schedule on 23rd St. and Free Pass Abolition May Mark New Street Car Policy

Peter Valler, general manager of the La Crosse City Railway company, announced this morning that beginning Monday morning, August 30th, the company will establish a ten minute schedule on the Twenty-Third street line. Formerly cars have run fifteen minutes apart on this line and there has been some dissatisfaction among the patrons of the road on that account.

Considerable interest is being manifested in the announcement, as it is thought the establishment of the ten minute schedule on this route marks the adoption of a new policy under the new management, which is to give adequate service regardless of the question of whether it is profitable on any particular line or not.

Another important change announced by Mr. Valler is that beginning September 1st the issuing of free passes for any purpose by the La Crosse City Railway company will be permanently discontinued. This will shut off the police supply complained of during the recent strike investigation, and will also deprive of free tickets such newspapers as have been in the habit of accepting them.

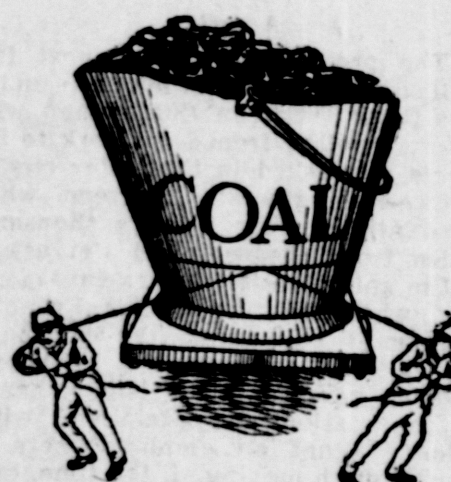

Mr. Valler stated that the directors have all agreed that the pass is an unnecessary evil and have decided that after the 31st of this month, next Tuesday, no free passes, checks, tickets or other form of free transportation will be issued by the company or honored on its lines.

The new ruling will affect the directors of the company as well as the police department, corporation newspapers, drug stores, employees' families, city officials, and others. Hereafter when any person boards a La Crosse City Railway company's car he will be required to pay a nickel.

CONSECRATE NEW LUTHERAN SCHOOL

Ceremonies to Mark Opening of Handsome New Building Next Sunday

Next Sunday the new German Lutheran school on West avenue will be consecrated with appropriate ceremonies. There will be services at 10 a. m. and at 2:30 p. m. In the forenoon service the new principal of the school, Prof. Frederick Doeppke, who comes here from Merrill, Wis., with very flattering recommendations, will be installed as head of the school by the preacher, Rev. J. T. Gamm. In the afternoon service the consecration of the new school will take place. Rev. J. Bergholz of North La Crosse will preach the sermon. This will be followed by the dedication ceremony at the close of which the school will be opened by Mr. Fred Techmer, the chairman of the building committee, and opportunity will be given to all to view the new building.

MARVIN WANTS WEED INSPECTOR

North Side Alderman Says That Section Is Being Overrun With Rank Growths

There have been during the past few weeks many complaints as to the great number of weeds overrunning the north side. The city under the present administration is provided with but one weed inspector and he evidently has his hands full of work, if one is to judge from the condition of the north side of the city. It is thought that the matter of appointing another weed inspector will be brought up at the next meeting of the city council. Alderman George Marvin, Jr., in speaking of the situation said: "Weeds are overrunning North La Crosse. The new plan of having but one weed inspector is a failure as far as North La Crosse is concerned. Never in the history of the city have we been so overrun with weeds."

The alderman refused to state whether he planned to introduce a motion to the effect that another man be appointed to look after the work.

NORTHWESTERN HAS NEW COAST TRAIN

The latest announcement of increased passenger service to western points is made by the Chicago-Northwestern railway. A new train, to be known as the "Oregon-Washington Limited," has been placed in service, leaving Chicago at 11:30 a. m. daily, arriving Portland at 8:30 the third morning, and landing passengers in Tacoma and Seattle the same afternoon.

The new train has an equipment that includes Pullman drawing room sleeping cars, Pullman tourist sleeping cars, Pullman private compartment and observation sleeping cars, and free reclining chair cars. All of this equipment is handled between Chicago and Portland without change. These trains have a la carte dining car service of the highest character.

This in addition to the present service via the electric lighted Chicago-Portland special and gives to the public the choice of two through trains to the North Pacific coast, each of which is operated on a three-day schedule via the Chicago, Union Pacific & Northwestern line.

The increased popularity of the Chicago, Union Pacific & Northwestern line to St. Lake City, the Yellowstone Park, Portland and the Puget Sound country, may be attributed to two principal reasons; one is that by this route some of the most remarkable commercial and agricultural development that the west can boast of is to be seen, together with a magnificent group of scenic attractions which reach their climax on the 200 mile trip which these trains make along the banks of the Columbia river from Umatilla to Portland.

The other chief reason for the heavy travel attracted via this route is due to the extensive publicity that has been given to the fact that it is the only double track, automatic safety signal line between Chicago and the Missouri river, and the only route operated under automatic safety signals from Chicago to the Pacific coast, while the train equipment and service are of such perfect type as to insure a steadily widening circle of patronage.

STOP SKY SCRAPERS; 1500 WORKMEN STRIKE

CHICAGO, Aug. 26.—Construction work on millions of dollars' worth of buildings is at a standstill following a strike of 1,500 workmen. Today the organization of building contractors held a conference and threatened to declare a general lockout unless the men returned to work again.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. O. T. Erhart.

A SURE WAY OUT QUICK RELIEF

It is a Positive Fact That in Not One Out of a Thousand of Supposed Kidney Cases Does the Trouble Really Lie with the Kidneys.

Practically all the so-called kidney trouble is in reality bladder trouble. Although sometimes intensely painful, and always annoying, it may be easily and quickly cured with GOLD MEDAL HAARLEM OIL CAPSULES.

There are other troubles arising in organs connected with the bladder which are also quickly relieved by the use of GOLD MEDAL HAARLEM OIL CAPSULES. Full information is given in the printed matter enclosed in each box. The bladder is the receptacle for discharges from the kidneys. Under normal conditions nature disposes of the contents of this reservoir (the bladder) promptly and without pain. Once inflammation sets in, however, the contents may be retained for an unusual length of time, thus producing much pain and discomfort, or may be expelled with abnormal frequency and be the cause of much inconvenience and trouble. All of this may be relieved and finally cured by the use of GOLD MEDAL HAARLEM OIL CAPSULES.

GOLD MEDAL HAARLEM OIL is put up in two forms, in CAPSULES and BOTTLES. Capsules 25c. and 50c. per box. Bottles, 15c. and 35c. At all druggists. Be sure that you obtain the Gold Medal Tilly brand, otherwise you will get an imitation. Literature free.

Mr. Ziegler is secretary at the Interlaken School, LaPorte, Ind. We recently received the following letter from him:

My Dear Mr. Toland: I take great pleasure in acknowledging the benefit I derived from the course in business and stenography at the Wisconsin Business University, which through the kind special attention I received, I was enabled to complete in less than nine months. The knowledge and training one receives there is eminently practical, as I have found by experience, for occupying a secretarial post of considerable responsibility. I daily have cause to be thankful for the time spent at La Crosse.

Very gratefully yours,

SALOON MEN RESENT TEMPERANCE SCHOOL

INDIANAPOLIS, Ind., Aug. 26.—An innovation in the public schools of Indiana lead the saloon men to charge today that the school system has fallen into the hands of the anti-saloon league. Superintendent of Public Instruction Dr. R. J. Aleo today distributed a consignment of 16,000 courses of study and one of the features of the school work prescribed is the study of physiology and hygiene. The curriculum shows that the "evils of drink and tobacco" will be taught in every grade of every Indiana public school.

RAGE RESTORES HIS LOST VOICE

Unable to speak above a whisper since the civil war John Purdy of Dakota, Minn., became so enraged at Ira Beach, a religious fanatic, for attacking the Masonic order, that he shouted in lusty tones: "You are a liar." The aged veteran thereupon beat the "Born Again" disciple over the head with his cane. Whether the cure is permanent remains to be seen.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take.

TAKE CARE OF YOUR EYES

Nothing succeeds like success. The glasses that I am fitting are giving perfect satisfaction. One patient always send another. Every one is pleased with the high quality of my work and the reasonable prices. It is not necessary to overcharge to furnish high grade spectacles and eye glasses. I absolutely guarantee every pair. If I find you are in need of a doctor and I cannot do your eyes any good I frankly tell you so. If your eyesight is becoming defective, if your head aches, if you are nervous, or if your eyes smart and burn I can furnish glasses that will be a perfect relief. Consult me if your eyes are wrong.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acid, roughly cleanses and purifies the system. It strengthens and regenerates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood, and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

Davenport, in his answer, admits he left his wife January 14 and says he did so because of her "nagging disposition." He declares his wife wanted to accompany him everywhere he went. At the same time, he admits his obligations to his wife and children and offers to pay alimony at the rate of \$250 a month. Mrs. Davenport lives at her husband's farm at Morris Plains, N. J., while Davenport makes his home at his new farm at Goshen, N. Y.

U. S. CHAMPIONSHIP OF RIFLE PRACTICE

CAMP PERRY, Ohio, Aug. 26.—The navy team has won the rifle championship of the United States, 149 points ahead of the United States infantry, the nearest competitor. The infantry, Massachusetts, United States cavalry, Ohio, Wisconsin and New York finished in the order named.

The scores of several of the naval academy teams were thrown out, the men having filed parts of the mechanism, contrary to regulations. This lost them 625 points and dropped them from sixth place to forty-seventh. The team totals and the order in which they finished are:

Name	Rapid	Skirmish	Total
U. S. navy	468	1,131	3,801
U. S. infantry	449	1,135	3,752
Massachusetts	428	1,101	3,727
U. S. cavalry	440	1,152	3,726
Ohio	448	1,107	3,715

YOUNG HARRIMAN TO BE A BRAKEMAN

CHICAGO, Aug. 26.—After having roughed it in the west as a chairman in a surveying party, Walter A. Harriman, eldest son of E. H. Harriman, is now ambitious to become a brakeman or fireman. Today he is en route to Arden to see his father.

When young Harriman arrived here he was as brown as a berry from his long exposure to the wind and sun of Idaho. He expects to continue his railroad education for several years.

"After a visit with the folks and a short vacation," he said, "I expect to start in the business again. I don't know just what I will take up first, but I am pretty ambitious to work as a brakeman or fireman for several months to study that end of the business."

TENNIS CHAMPIONS AT NEWPORT TODAY

NEWPORT, R. I., Aug. 26.—It will be the east against the West, science and speed against steadiness at the Casino courts today when W. J. Clothier of Philadelphia, and M. E. McLoughlin of California, meet in the finals of the all-comers of the tennis championship. Tennis followers here are about evenly divided in their choice of a winner.

MILWAUKEE, Wis., Aug. 24.—"Stoney" McGlynn—that's the name that sounds good to the fans of Milwaukee and the American association. "Stoney" can have anything he wants and he even gets things he doesn't ask for. Recently fans here presented him with a diamond ring for his good work, appreciating that he did wonders to keep the Brewers around the top if the ladder.

"Stoney's" first name is Grant—he has no middle name—but he has a good right arm with which he throws a fine "spitter" and a good drop.

It is a remarkable record that McGlynn possesses. Here are some of the things he accomplished since he joined the Milwaukee team in April:

Pitched 10 shutout games.
Won 20 games.
Lost 12 games.
Went in as emergency pitcher 17 times.

Won ten games after taking the place of another pitcher.

Lost 7 games after taking place of another pitcher, several times going after the game was practically lost.

Lost three 1 to 0 games in seven days.

Grant McGlynn has done wonderful things before ohn J. McCloskey brought him to Milwaukee. He has been pitching about eight years and among other things his record shows:

Won two pennants.
Pitched 399 games in five years.
Pitched 484 games in eight years.
Pitched 4,356 innings.
Pitched three games in one day for York, Pa., against Harrisburg in 1904 and won them all.
Pitched 23 games against Harrisburg in the Tri-State league and won 22 of them.

THREE RUNAWAYS IN TOMAH WEDNESDAY

TOMAH, Wis., Aug. 26.—(Special.)—There were three runaways in this city Wednesday, caused by automobiles frightening the horses.

Mail Carrier Johnson's horse was frightened by an automobile in the afternoon, thus interfering with the U. S. mail. The automobile was one from Wilton running on the bus line. The horse was hitched back of the postoffice, and at about 1:30, while Mr. Johnson was inside waiting for the mail bags for train No. 6, the automobile came up. The horse began to jump but the auto did not stop. Soon the horse had broken loose, and ran down on Main street onto the sidewalk, frightening women and children, who had all they could do to keep out of the way. The horse loosened itself and left the wreck of the buggy in front of Paulsen's shoe store. The mail was taken to the depot in the express wagon, while Mail Carrier Johnson caught his horse.

There was a collision of an automobile bus and a three seated lively rig Wednesday afternoon. The buggy was near the turn at the fair grounds when the auto came up from behind. The driver tried to turn out, but found that the lever did not work, and bumped into the carriage. The sand was quite heavy, so the collision was not serious, although the occupants of the buses were pretty well shaken up, and some jumped out.

The third victim of auto scare was a team of farm horses. Wednesday morning, who were hauling a load of exhibits to the big fair. The buggy was upset and things scattered over the road. Somebody remarked: "My, but that jam smells good."

HORTICULTURISTS CLOSE CONVENTION

The illustrated lecture by Prof. Elsom on Yellowstone park closed the one-day session of the Wisconsin Horticultural society at the court house yesterday. The delegates left for their homes on night trains, abandoning a plan to inspect the park work in La Crosse owing to the heat. The meeting was a very successful one, and there were large exhibits of fruits and flowers.

Soaring Alone

Way above them all. Its popularity has ever risen since first it saw the light of printer's day. No magazine excels it, no magazine even approaches it, in literary merit, in artistic illustrations, or in excellence of the publisher's art. For twenty years it has gone into the same 14 Short Stories homes uninterruptedly. It was the first to blaze the way for a 35-cent magazine to be sold for 15 cents. Its price remains the same to-day, but its quality surpasses the 120 Illustrations 35-cent publications. Never has the number of the 268 Pages paid-in-advance subscribers been approached—much less equalled—which shows that its readers do not buy it on the newsstands occasionally in order to read only certain articles, but they want it regularly that they may read all of its contents every month.

SPECIAL OFFER WILL CLOSE ON SATURDAY

Opportunity Is Yours to Jump Into the Lead and You Have Full Leeway in Taking Advantage of It; \$25,000 Extra Votes eans a Great Deal; It Will Help to Win the Awards When the Contest Count is Finally Summed Up; "Do It Now" Motto Makes Good.

- To give the contestants outside of La Crosse the same length of time in which to work, their subscriptions will be accepted and credited on the special offer if mailed before 10 p. m. Saturday.
- August 28, with the envelope or package bearing the postmark of the date and hour mailed, together with the postmaster's name and the date and hour of mailing written in ink OUTSIDE of the envelope.

There is a homely maxim to the effect that Providence aids those who help themselves. This is true in anything and is meant evidently to point out the fact that your own effort should be relied on before you can expect the myrtle wreath of victory. The La Crosse Tribune is offering an array of prizes worth \$3,500 to which you are invited to help yourself. Not only are you given this invitation, but The Tribune has gone several steps further and presented to you the means by which this may be done.

Perhaps the most liberal offer which could be made to those contesting for awards is the special offer now in effect and which lasts until Saturday night, Aug. 28, at 10 o'clock. By securing five one-year subscriptions to The Tribune paid in advance for delivery either by mail or carrier, 25,000 extra votes will be awarded. For every five six-month subscriptions to The Tribune, paid in advance for delivery by mail or carrier 10,000 extra votes will be given.

All subscriptions must be in the contest department on Saturday night, Aug. 28, before or at 10 o'clock, but to give contestants outside of La Crosse the same length of time as those in the city districts in which to turn in their subscriptions, mail matter from them postmarked with the date and hour of mailing and the postmaster's name and address written on the outside of the package, will be accepted at this office. It is absolutely imperative, however, that the hour and date of mailing together with the name and address of the postmaster be plain upon each piece of mail submitted.

Nominations will close in a short time. If you are desirous of entering the race now and would avail yourself of the opportunity to immediately get up among the leaders by means of the special votes, send in your name by mail or telephone or come in person to the contest department and make your nomination. The workers are making hay while the sun shines and when the sun doesn't shine they are busy turning in the hay that they have already made. This is typically the spirit of the contest. It is a pleasure to know that efforts made by The Tribune to benefit and aid the contestants are being appreciated. The two 1909 model automobiles, four Haines Bros' pianos, four diamond rings, four solid gold bracelets and four purses of gold are awards which not only please the feminine taste, but likewise appeal to both men and women from the point of their value and excellence. Phone No. 323 is at your service on any matter of information.

In making out your coupons clipped from The Tribune daily, be sure and write the name of the contestant plainly and put the correct district number in the space indicated. Mutilated or defaced coupons will not be considered.

The ballot box closes daily at 1 p. m. and votes turned in before that time will appear in the following day's issue of The Tribune.

Notice to Subscribers
Every subscriber to The Tribune who pays any amount over 50 cents on subscription is entitled to votes which can be given to any one of the contestants in the four districts. When you pay your subscriptions insist on having the ballot to which you are entitled. It may be the means of your favorite winning one of the elegant awards.

It is the object of the contest department to serve the contestants at any hour of the day, from 8 a. m. to 8 p. m. with information, data or anything which will enable the ladies to pursue their work in the merry spirit that now prevails. Phone No. 323 has been installed for your convenience.

THROW OF BUYERS CONTINUE.

The people of La Crosse and vicinity appreciate the great advantage O. T. Erhart obtained for them, in getting the Dr. Howard Co. to allow the regular 50 cent size of Dr. Howard's specific, for the cure of constipation and dyspepsia, to be sold at half price, 25 cents, and have bought hundreds of bottles.

Every bottle of the specific sold by O. T. Erhart has had his personal guarantee to refund the money if it was not satisfactory, but none has come back, showing the wonderful curative power of this remedy.

If you have not already taken advantage of this chance to get a month's medical treatment for 25 cents, be sure to call at O. T. Erhart's today, for he has only a small amount of the specific on hand.

"LEN" LOTTRIDGE .. LETTER.

(Continued on Page 3)

first and most exciting contest occurred in 1869, when Hon. Matt C. Carpenter of Milwaukee and Hon. C. C. Washburn of La Crosse were the leading republican candidates that soon narrowed the contestants to these two able and prominent aspirants, one of whom was morally certain of election. The friends of each put up a vigorous and powerful contest, the outcome of which could only be settled by the vote of the senate and assembly in joint session held January 26, 1869, in which the Milwaukee man was elected.

In the legislature of 1869 were many applicants for positions under the Grant administration, and as the Washburn influence had stood by Grant all through his military career a recommendation signed by Washburn was considered certain to win the desired place, and the element of strength was sought by many. Hon. J. G. Baxter, who had been regimental surgeon through the war of the rebellion, was elected member of the assembly from Jackson county in 1868. He wanted a position as postmaster and proposed to vote for Washburn if he would recommend him for that position, but Washburn refused to allow his friends to make the desired promise for that vote, although he subsequently endorsed his appointment for the postmastership.

A young Norwegian assemblyman wanted to be secretary in one of the United States territories, and he would vote for Washburn if the latter would recommend him to President Grant for the position, but this was refused and by promises from Carpenter he voted for him. He never got the position, but subsequently was given a place of minor importance. The question as to who should be United States senator caused a hot and exciting campaign that lasted about three weeks before the session took place. The excitement went up to fever heat on both sides, and one day Leonard Lottridge bet E. W. Keyes a hundred dollars on "Washburn against the field" and at the same time shook a thousand dollars in the faces of Carpenter's friends and offered to make the bet for that sum. This drove the opposition to cover and highly pleased the La Crosse candidate when told the condition was "Washburn against the field," and the move seemed to very much improve his chances of election.

Hon. N. M. Littlejohn who was state senator from Littlejohn county, was an applicant for United States marshal of Wisconsin, and he controlled the votes of three assemblymen. That gave him four votes for United States senator, and his friends had promised him full support if Washburn would endorse him for state marshal. The entire vote in the legislature had been thoroughly canvassed, and the vote between the two candidates was fully shown to be very close, and that Littlejohn with his four votes held the balance of power, and as he went so would go the United States senatorial toga. Again Washburn put down his foot against being elected United States senator by making any promise of his influence or action in the discharge of the duties of that office. His supporters told him plainly the true condition of the case and said: "Give us a little more rope and we can win the fight," but he refused to yield. I have often thought he would have made the promise if he had not had so much confidence that he would win.

The republican caucus to nominate a candidate for United States senator was called for January 25, 1869, at 8 p. m., and about four hours before that hour Littlejohn walked into the Carpenter camp with his four votes that nominated Carpenter as the republican nominee for senator. Two hours before the caucus met a note was sent to the Washburn headquarters signed by Angus Smith of Milwaukee and others, saying there was a thousand dollars then in the Villas hotel safe ready to take the thousand dollars bet of Washburn against the field. This offer to bet had stood nearly two weeks without a taker, but the note from the Milwaukee gentleman received no reply for we counted our votes every day and knew just where we stood, and what our vote was, and were on to every move made by our opponents.

We had ample power to have elected Hon. C. C. Washburn United States senator in 1869 if our candidate had only given us the "little more rope" which we asked for that was to be fairly and consistently used after the nomination was made in republican caucus.

Friends of the nominee went on a big celebration that lasted past midnight with cheers and music, but their opponents sat quietly in their rooms like first class mourners at a funeral and they lost no time in telling C. C. Washburn what might have been had our hands not been tied. We all admired the great ability and unswerving integrity of our candidate, but we questioned his judgment and felt sore indeed at losing the game while we held the controlling cards but were not permitted to play them.

In 1875 when the Wisconsin legislature first met, its first and most important duty was the election of United States senator to succeed General Carpenter. The republicans had in 1874 elected a majority of the legislature on joint ballot and the two candidates, Carpenter and Washburn, of five years before, were again the leading candidates and contestants. The sitting senator was asking to be chosen as his own successor, while Washburn was on hand to give personal direction to his caucus. The first of February, 1875, a republican caucus to nominate a candidate for senator was called and resulted in Carpenter receiving a fair party majority for United States senator. Washburn recognized this action as final and retired from the contest, but some of his warm supporters refused to be governed by the majority action and bolted the nomination.

In 1874 the republicans in La Crosse county elected Hon. John Bradley to the assembly. He had vigorously supported Washburn and he led the bolt against Carpenter. When the legislature met in joint session he presented the name of Hon. Angus Cameron for senator and amid great excitement and surprise he was elected and Carpenter defeated. This result surprised almost everybody and none more than the successful senator himself. To the shrewd management and great influence of John Bradley the democratic vote was cast for Cameron, and to that able, grand assemblyman from Bangor, Cameron owed his election as United States senator for

Wisconsin in 1875 to succeed Hon. Matt H. Carpenter.

During the campaign for senator in 1869 Carpenter made more promises than he could redeem and his failure to make good was a source of much weakness in 1875 when he sought re-election, and many disappointed office seekers fought him bitterly.

Senator Littlejohn never received the nomination for United States marshal of Wisconsin. For five years the republicans of Wisconsin elected the United States senators with two exceptions. W. F. Vilas, democrat, was chosen senator in 1891, and John S. Mitchell, democrat, in 1893, but each served only one term.

For the past fifty years the republicans of the Sixth Wisconsin congressional district, now the Seventh district, elected their party candidates with two exceptions. Gilbert M. Woodward, democrat, of La Crosse, defeated Hon. C. M. Butt of Viroqua in 1883, and Frank P. Coburn in 1891 defeated Hon. O. B. Thomas who had held that office for six previous years. Each of these democrats held but one term. Coburn was succeeded by Geo. B. Shaw of Eau Claire, who died after serving one year, and Hon. M. Griffin was elected in to serve the remainder of the term. In 1899 Hon. John J. Esch was elected as successor of Griffin and has been a member of congress from this Seventh district continuously to the present time. His office will expire March 4, 1911, after a service of twelve years, and we predict he will then be nominated and re-elected to the house of representatives, unless in the meantime he is chosen as United States senator to succeed R. M. La Follette.

In January, 1881, Senator Carpenter died and the contest as to who should be selected to serve out his term was the hottest and most exciting senatorial election ever known in Wisconsin. There are many incidents and thrilling events connected therewith that would make very interesting history, and if my ambition holds out I may write it up for the readers of The Tribune hereafter.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. O. T. Erhart.

WHERE PRESIDENT TAFT WILL MEET PRES. DIAZ

EL PASO, Texas, Aug. 24.—Clasping hands on the international bridge spanning the muddy waters of the Rio Grande, William H. Taft, president of the United States, and Porfirio Diaz, president of Mexico, will exchange greeting on Oct. 16 in this city. Neither executive will leave his own country when the ceremony takes place, for each man will stand upon his own territory and the handshaking will take place over the international boundary line. Afterwards, standing side by side, each still in his own country, the two presidents will receive and shake hands with the thousands of people who will pass before it. It was originally planned to have a banquet in the center of the bridge and have the two executives of the two greatest nations on the American continent sit beside each other at the table, but this plan has been abandoned in favor of the more democratic one in which the whole people can pass before the two distinguished visitors and greet them.

2:17 pace—Kid Birchwood (Chase, Minneapolis), first; Vermount (Minshall, Viroqua), second; Nellie Simmons (Jones, Hillsboro), third. Best time, 2:16 1-4.

NO MORE JOY RIDES
FOR JACK JOHNSON

SAN FRANCISCO, Cal., Aug. 25.

—The chug of his six cylinder is quiet and the joy rides can only come occasionally now since Jack Johnson, the colored heavyweight champion, is in training. Johnson trudges along the highways, throws the medicine ball, pulls the weights until the pulleys are hot and then takes a whirl at Bob Armstrong, who was formerly Stanley Ketchel's sparring partner.

Why Armstrong should have deserted the Ketchel ranks for the side of the colored fighter is not known. It is said Ketchel did not make any effort to secure his former training partner.

Roscoe Taylor and Tommy McCarthy, the latter of an enviable reputation as a knockout producer, have been secured to meet in a preliminary bout at the Johnson-Kaufman fight Admission Day.

An Atchison man pays a cent and a half more for goods than is necessary, just to be contrary.

FOREIGN MARKETS

New York Stocks.
NEW YORK, Aug. 26.—The market for the Harriman issues was in a state of semi-demoralization at the opening and during the first fifteen minutes the losses in those stocks caused general weakness all through the list. Long before the opening an immense crowd gathered at the Union Pacific post and scrambles to sell Union Pacific stocks at a fair opening price were continual. Sales were made at one point apart when the gong sounded, at 203 1-2 to 202 1-2 close. The price then broke to below 202. The preferred fell over two points and New York Central, Southern Pacific and Erie dropped one point or more in the first fifteen minutes. Steel common lost a point and Reading about the same amount. The general list was comparatively well held in view of the feverish and unsettled condition of the Harriman stocks.

11 a. m.—Houses that are regarded as Standard Oil brokers were heavy sellers of the Union Pacific all through the first hour, several of them having 10,000 share selling orders, while many orders for almost as large lots poured into the market continually from the same sources. It was estimated that fully 50,000 shares of Union Pacific were sold by this group. This pressure made Union Pacific the weakest feature on the floor and was construed as reflecting the abandonment of a coming distribution which was the basis of the bull movement that carried the stock up to its highest record price. Price movements for the greater part of the first hour were materially lower figures. It was reported from the loan crowd that the short interests as reflected in the borrowing demand had been heavily increased since the beginning of the week.

Government bonds unchanged; railroad and other bonds weak. Noon—A little steadiness developed in the market in the late forenoon, but rallies from the low prices were feeble and not held. Generally the market displayed evidences of quieting down after the liquidation that started with the beginning of business today. The market closed weak.

THE NOVEL IN PITTSBURG IN WHICH THE MAD MISER HOARDED HIS WEALTH

PITTSBURG, Pa., Aug. 24.—Rich enough to live in a mansion, yet eking out a miserly existence in a hovel; able to dine like a king, yet feeding as a beggar, with wealth sufficient to dress in the height of fashion, yet clothed in rags; able to surround himself with every luxury, to spend the summer by the seaside to cruise in a yacht, yet finally having to be rescued by the police from a condition of filth, Peter Liebach of the north side, this week partook of the first really "square" meal that he has eaten in years and at night experienced the novelty of sleeping in a clean bed.

Liebach is known to be worth \$50,000, and the total may run to \$50,000. Chalked upon one of the walls of his mean little house were the figures "500,000." Whether this means that the man has that much money or meant to continue his miserly mode of living until he got it, are now being investigated.

MINNESOTA AND THE NORTHWEST

SAVES TWO LIVES WITHIN AN HOUR

MINNEAPOLIS, Minn., Aug. 26.—Donald Thayer, 17 years old, son of Mr. and Mrs. W. H. Thayer, 808 Mount Curve avenue, took a holiday from the First National bank, and within an hour saved a young man and young woman from drowning in the St. Croix river, and may receive a Carnegie medal for his heroism.

FEDERAL PLACE FOR LABOR LEADER

ST. PAUL, Minn., Aug. 26.—Labor men in Minnesota will be interested in the announcement from Washington of the appointment of Legrand G. Powers as chief statistician in the national census department. He will represent the department of commerce and labor.

Powers who was originally a preacher with a church in Minneapolis, was for five years labor commissioner of Governor W. R. Merriam.

FIND YEGGMEN'S OUTFIT

PIPESTONE, Minn., Aug. 26.—While tearing down a coal shed at the E. A. Brown elevator here, workmen found a complete set of yeggmens' tools, including dynamite caps, fuse, candles and nitroglycerine. The stuff had evidently been recently placed under the shed, but there is no clue as to its ownership.

WANT JUDGE REMOVED

ST. PAUL, Minn., Aug. 26.—Governor John A. Johnson has been appealed to by the council of Sauk Center to remove W. A. Morse, municipal judge, now under fire and charged with withholding funds collected as fines.

CHARGED WITH MURDER

CALUMET, Mich., Aug. 26.—Ellas Karliko was arrested on Wednesday on a charge of murder as a result of the death of Herman Mattison, aged 55, of Kearsarge. Mattison was found on the road near Red Jacket late Saturday night and it was supposed he had been run down by an automobile or rig. He was found to have sustained a fractured skull and a broken leg and shoulder blade. Arrests of Karliko and five others developed that Karliko had knocked Mattison down in the road, where he probably was run over while unconscious.

CHILD PARALYSIS IS STILL SPREADING

ST. PAUL, Minn., Aug. 26.—Three deaths from infantile paralysis were reported to the health department today. One case, not fatal, was also reported. To date there have been 32 cases and 16 deaths, approximately 20 per cent.

PICNIC AT PETTIBONE.

The M. E. Sunday school picnic which was to have been held at the Ferguson picnic grounds up river today is being held at Pettibone park instead. The picnicers were conveyed from the State street landing to the picnic grounds at 8:30 a. m. in launches.

WISCONSIN NEWS

MOTHER SAVES BOY FROM KIDNAPERS

NEW RICHMOND, Wis., Aug. 26.—The nine-year-old son of Michael Biederman, a farmer was seized by two men as he was alone in the barn. One of the captors clapped his hand over the boy's mouth and carried him through the brush to a small grove about 80 rods from the house, and there hid him.

The mother missed her boy, and after searching the premises for him, ran down the road frantically calling him by name. She passed within a few rods of the place where the two men had the child in hiding. This frightened them so that they released the boy and instructed him to return home by a circuitous route and to say nothing about where he had been.

The boy describes his captors and thinks he would be able to identify them.

DR. ACKERMAN DEAD.

FOND DU LAC, Wis., Aug. 26.—Dr. J. O. Ackerman, one of the best known physicians and turfmen in the state, died here after a long illness, aged 68 years. He had been a resident of Wisconsin sixty-two years.

ELOPERS CAUGHT BY POSTAL CARDS

MILWAUKEE, Aug. 26.—Anton Becker, alias Jacob Antoin, and Mrs. Mary Schwartz were arrested Wednesday, Becker being accused of having broken up the home of Harry Schwartz, Philadelphia, by eloping with Mrs. Schwartz a year ago.

It is said that when Mrs. Schwartz ran away, she took her husband's savings, \$700, and with the money she and Becker are alleged to have bought a small grocery store which they were conducting when arrested. Recently Mrs. Schwartz's son celebrated his birthday and the woman wrote him a post card of congratulation. Through this she was traced, it is said.

BROOKS GIRL NOT FATALLY INJURED

MILWAUKEE, Aug. 26.—Mabel Brooks, aged 15, whom her cousin, Albert Marohn, 23 years old, sought to murder before he killed himself near a grove on Fernwood avenue, St. Francis, Tuesday afternoon, was removed from Emergency to Milwaukee hospital Wednesday afternoon.

The girl is resting as easily as can be expected, physicians say. She was shot in the left cheek and below the left shoulder blade. Neither bullet has yet been found and surgeons will not probe for them until the girl's condition improves.

PRESIDENT FREES A COUNTERFEITER

COLUMBUS, O., Aug. 26.—Charles Kline, a federal prisoner serving his third term, a five year "bit," for counterfeiting, was released today through the clemency of President Taft. Tuesday night a telegram was received from Acting Attorney General Wade Ellis reading:

"Release Kline immediately on commutation by the president."

Upon confirmation Wednesday, Kline was set free. No additional details were received at the prison.

Kline's prison record is long. In 1895 he was paroled, but was soon returned for violation. He was again released on parole in 1905 and was again returned for violation six months later. During his temporary freedom he was convicted of counterfeiting and sentenced to five years, which he commenced upon the completion of his twenty-five year term, on June 21, 1907.

J. P. MORGAN'S YACHT HAD A HARD BATTLE

NEW YORK, Aug. 26.—The dry docking of J. Pierpont Morgan's great ocean going yacht Corsair, brought to light the fact that the vessel had gone on the rocks in the Hard island district while traveling at a high rate of speed and tore such a hole in her bottom that she had to be rushed to her pier to prevent her from sinking.

Morgan, with a party of friends, was on board at the time and though efforts have been made to conceal the fact it is said they were in grave danger for a time.

When the vessel hit the submerged rocks there was a near panic on board. One of the Corsair's boilers was shifted, nearly every one who was standing was thrown off his feet and considerable damage was done the yacht.

LOCAL LUMBER CO. IS NOW DISSOLVED

The St. Hilaire Lumber company of this city has been dissolved. The Crookston Lumber company in which the Hixons of this city are heavily interested, has increased its capital stock from \$300,000 to \$1,500,000.

The dissolved company was a subsidiary of the Crookston company.

The Wind River Lumber company of Oregon of which A. Hirschheimer is president, organized with \$300,000 common and \$200,000 preferred stock, has transferred \$100,000 of preferred to common and now has but \$100,000 of preferred.

LAW SUIT TO OBTAIN AUTO RACE PRIZE

INDIANAPOLIS, Ind., Aug. 26.—The determination of the Jackson Automobile company of Jackson, Mich., to claim the \$10,000 Wheeler-Schebler trophy, which the company contends its car won in the 300 mile race at the speedway, was indicated today when it became known the automobile company had filed suit for possession of the trophy and \$100,000 damages for being deprived of the prize.

The race was called off after three accidents occurred in one of which three lives were lost, after the cars had run 235 miles. At the time the Jackson car No. 10 was leading by ten miles. It is alleged the trophy is rightfully the property of the plaintiff. The position of the defendants is that there was no race.

YOU'RE going to have this coming fall, a chance to buy and wear the best clothes in the world; the kind of clothes that well-dressed men are always glad to buy.

Hart, Schaffner & Marx Clothes

are to be the feature of our line the coming season; and we want every man of you to know it early, and keep it in mind for the time when you next think of buying clothes.

We are making a specialty of these goods because we want you to get the greatest possible value for your money. You want value; that's the only real way to economize in clothes; and value means the sort of quality Hart Schaffner & Marx put into their goods. They're all-wool, in every thread of the fabrics; they represent the products of the best weavers in the world, and they offer a greater variety for your selection than you'll find in any half dozen other makes put together.

But all-wool, vitally important as it is to your interests as a wearer, is not the only thing we know about Hart Schaffner & Marx quality. These clothes are designed right; the whole question of fit depends on that; and it's important to you to know that you can be correctly fitted without trouble here. They're correct in style, of course; and perfectly tailored; these makers know their business well enough not to spoil good all-wool fabrics, fine linings and trimmings, by designing and tailoring that are wrong. Hart Schaffner & Marx are the best clothes makers in the world; and every dollar of value they put into the goods is there for you to get out in the wear.

There's a lot of inferior, cotton-mixed clothing in the market; pretty poor stuff, some of it. It looks pretty good; enough so to enable dealers to charge a good price for it; it isn't as a rule worth what it costs.

FARM HANDS KICK ON THEIR BOSSES

Men are already returning from the harvest fields to the southwest and they complain that the farmers are inhuman in the treatment of their help this year.

The reason for this condition of affairs they ascribe to the large number of men that are looking for work in the harvest fields. The towns are full of men who are looking for work to keep them from starving, they claim. With men as plentiful as that the farmers do not care how they treat their help; they know they can get plenty of men to replace those that quit on them. This is the version given by the returning travelers.

"It is very seldom that you find the men sticking to their work for more than a few days at a time, said one laborer who has just returned yesterday from the harvest fields of western Minnesota. "Most of the men come and go every few days. Once in a while you find a farmer who treats his help well but they are few and far between. When a man's crops are spoiling on his hands and large sums of money are involved in getting the grain to the elevator he seems to forget that the workers are human beings."

Farmers Also Kick.
The farmers, on the other hand, complain that the men who go west to work in the fields are useless, some of them being nothing more or less than "bums." They claim that less than half of the men shipped to the harvest fields ever go to work.

The harvest in the northern part of Minnesota and in North Dakota has not yet started but it will be in full blast within another week. As a result of the treatment the men are said to be receiving in the harvest field it is possible that there will be some trouble in getting help in the northern grain belt. The

farmers in the northern part of the grain country have always had a reputation for treating their men better than those in the southern section. This being the case it is hardly thought probable that the men will refuse to go to the northern harvest fields when they are needed.

BRUSH COMPANY BUILDS BIG PLANT

The Brush Runabout company of Detroit, cramped for space in its present quarters, has purchased 20 acres of ground near Massachusetts Ave., Oakland avenue and Grand Trunk tracks in Detroit.

Architects are now at work on plans for four large manufacturing buildings, which will be erected at once on the big site. These four buildings, however, are for immediate need and others will be planned as soon as the first ones are under way.

The business of the Brush Runabout company of which Frank Briscoe is president, has been growing tremendously and has outgrown all the plants which they have been able to lease, so there was nothing left for the company to do in order to take care of its increasing business, but to buy and build a plant of its own.

"Our business in the western states," said Mr. Briscoe yesterday, "is developing wonderfully since the passing of the Glidden tourists through that section of the country. The trip of the little seven horsepower cars over that long rough journey was the best evidence the public could have of the dependability of the little Brush and we expect to do an enormous business in the middle west in the next two years."

Don't think because the world is growing wiser that you still haven't a lot to learn.

A girl may think a fellow is a man after her own heart, when he is really after her money.

"The Bath DeLuxe" For the Shampoo Delightful

No other brush for the shampoo is so convenient, effective and altogether satisfactory as the Knickerbocker Spraybrush. Designed primarily for bathing the body, it sends directly to the skin countless tiny streams of fresh, clean, flowing water. Applied to the head, the little rubber teeth cleanse thoroughly the scalp and the roots of the hair.

Knickerbocker Spraybrush

is the ideal shampoo brush because its soft rubber teeth-tubes more nearly simulate the action of the finger tips when applied to the scalp than any other shampoo device known. With the Knickerbocker you can use soap or eggs for a shampoo and thoroughly cleanse and rinse the scalp and hair with ease.

Easily Attached to Any Bath Tub.
